TECHNICAL SKILLS

Languages: Python, SQL

Big Data & Cloud: Azure Databricks, Databricks Lakehouse, Unity Catalog, PySpark, Kafka, AWS S3

Azure Services: Azure Data Lake, Azure Key Vault, Azure Cosmos DB, Azure SQL Server, Azure Storage Explorer

Tools: GitHub, Jenkins, Bitbucket, Microsoft Teams

EXPERIENCE

Senior Associate Consultant, Infosys Limited

Feb 2025 – Present

Infosys Limited — Noida, India | Tech stack: Azure Databricks, PySpark, SQL, Unity Catalog, GitHub, Jenkins, Bitbucket, AWS S3

- Develop end-to-end ETL pipelines in Databricks Lakehouse using Medallion Architecture for Adidas invoice data across retail and e-commerce workloads.
- Engineer Amazon Connect call-transcript pipelines, processing ~200K JSON inputs daily into millions of rows across metadata and transcript tables.
- Build and maintain Databricks and PySpark transformation pipelines; collaborate with teams to translate data requirements into optimized workflows.
- Work with Unity Catalog, GitHub, Jenkins, Bitbucket, and AWS S3 across the data-pipeline development lifecycle.

Systems Engineer, Tata Consultancy Services

Feb 2020 – Jan 2025

Tata Consultancy Services — Noida, India | Tech stack: Azure Databricks, PySpark, Kafka, Python, Azure Function Apps, Azure Data Lake, Azure SQL Server

- Built real-time streaming pipelines for TotalEnergies using Azure Databricks, PySpark, and Kafka to process sensor data.
- Developed batch-processing pipelines with Python, Azure Function Apps, Azure Data Lake, and Azure SQL Server for reporting and analytics.
- Automated Databricks job monitoring via Python and Microsoft Teams integration, cutting manual effort by 1–2 hours daily.
- Designed and optimized ETL workflows for data integrity and accuracy; managed six newly hired data engineers across business units.
- Developed Interactive Electronic Technical Manuals (IETMs) using XML and HTML.

Hardware Design Engineer, Satyam Software Solutions Pvt. Ltd.

Jun 2019 – Feb 2020

Satyam Software Solutions Pvt. Ltd. — Noida, India

- Designed schematics and PCB layouts for Smart Ticket Vending Machines and AFC Gates for Delhi Metro Rail Corporation using Altium Designer and KiCad.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering — IIMT College of Engineering, Greater Noida | 2015 – 2019 | Grade: 71%

CERTIFICATIONS

Databricks Lakehouse Fundamentals (Databricks) · Introduction to Azure SQL Database for Beginners (Udemy) · Web Scraping in Python (Udemy) · Python for Data Science, AI & Development (Coursera) · Python Essential Training (LinkedIn) · Programming for Everybody (Coursera)
